- 3. Once downloaded but BEFORE installation, do the following:
 - Left-click on Jwatcher file at bottom of browser (if using Chrome) where it shows things that have been downloaded
 - Select "Show in Finder"
 - It will bring up a list of your downloaded programs:

• Right-click on the JWatcher file that has been downloaded, "Jwatcher_V1.0"

• It will bring up a list of options

JWatcher instructions 2020: Installing with Windows10

4. Now, double click the "Jwatcher_V1.0" in the downloaded files and follow the installation instructions.
